WA, a furniture system designed by Piero Lissoni with Marc Krusin

simplicity of complexity

"Our work is primarily about creating a visual silence.
We concentrate on proportion and detail rather than a specific form.
Lines and planes are carefully resolved into volumes,
which in turn creates a visual harmony."

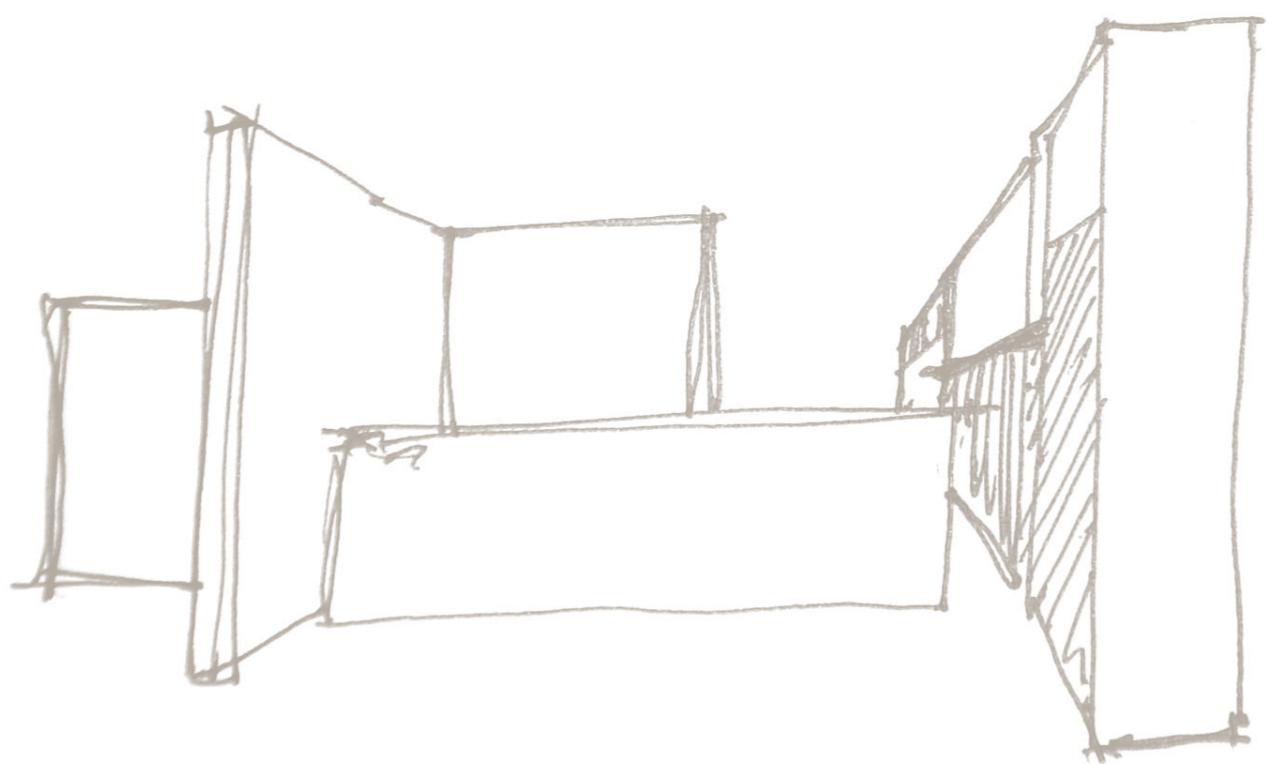

Piero Lissoni

"WA has two colour palettes, neutral and accent.
For the larger surfaces a neutral palette of tone on tone is employed,
ranging from white, to off white, through grey to carbon.
The various tones sit comfortably side by side in any combination."

Piero Lissoni

tone

"In addition to the neutral tones, a second palette of accent colours is applied to the storage door panels and accessories. The carefully chosen shades of red, yellow and blue are in stark contrast to the neutral palette. Later in the project it was felt that a completely neutral palette would also be desirable for such elements, so the tonal range was also extended to include the accessories."

The functionality of WA had to be invisible.
This NOTHING had to do everything.
In fact nothing was the answer.

As to ergonomics, the care of wrists and shoulders drew our full attention, particularly the hardness of contact between the workstation and the arm. Soft parts ease this interface, and bring a level of comfort and softness that has previously only been associated with seating.

"The challenge with WA was to accommodate the rigorous performance criteria, but retain a visual silence. The requirements of office furniture are probably the most demanding that we have worked with. We have created a very practical, a highly technically capable system that is still clearly in the Lissoni spirit. That gives me great satisfaction."

Piero Lissoni

Piero Lissoni started his career as a designer in the late 70s, graduating in architecture from Milan Polytechnic in 1985. Together with Nicoletta Canesi, Piero Lissoni founded Studio Lissoni in 1986 (later to become Lissoni Associati) and Graph.x in 1996, developing projects in the fields of architecture, industrial design, graphics, art direction and corporate identity.

His work ranges from furniture, accessories, kitchens, bathrooms, lighting fixtures to corporate identity, signage and packaging. His interior projects include showrooms, trade stands, hotels, private houses and yachts.

Piero Lissoni has twice been selected for the prestigious 'Compasso d'Oro', in 1991 and 2001. In November 2005 he received the Interior Design magazine 'Hall of Fame' award. This was followed by Elle Decor 'Best Kitchen' award and the 'Good Design Award' from the Chicago Athenaeum Museum of Architecture in 2006.

Piero Lissoni commence sa carrière d'architecte à la fin des années 70, après avoir obtenu son diplôme d'architecte du Politecnico de Milan. Avec Nicoletta Canesi, il fonde en 1986 le Studio Lissoni (plus tard Lissoni Associati) et en 1996 Graph.x.

Il travaille sur des projets d'architecture, de création industrielle et graphique, direction artistique et image de marque, dans des domaines aussi divers que le mobilier, les accessoires, les cuisines, les salles de bains, les luminaires, la signalétique, le packaging. Ses projets d'architecture intérieure comprennent des showrooms, des stands d'exposition, des maisons particulières, des yachts.

Piero Lissoni est sélectionné 2 fois pour le prestigieux "Compasso d'Oro", en 1991 et en 2001. En 2005, il reçoit l'une des plus grandes distinctions du monde de l'architecture, le prix "Hall of Fame" du magazine Interior Design et celui du "Best Kitchen" de Elle Décor. Plus récemment, le "Good Design Award" du Musée d'Architecture de Chicago en 2006.
