

HAWORTH® | HUGO

**HUGO**

À force de zapper toute dimension charnelle et émotionnelle, nous risquons de nous transformer en humains purement intellectuels. À l'heure du virtuel, réveillons nos sens les plus terre à terre, ceux qui nous font vibrer.

Haworth invente Hugo, ou comment le rangement devient plaisir, parce qu'il n'y a pas que le travail dans la vie de bureau.

If we do away with all earthly and emotional feelings, we risk transforming ourselves into purely intellectual beings. In a truly virtual age, we must awake our most down to earth senses, the feelings that most affect us and which make up for our emotional shortcomings.

Haworth has invented Hugo, where storing and filing become a pleasure, because there's more to Office life than just Work.

# HUGO

Perfectionnisme du design, souci du moindre détail, dimension statutaire d'une fonction longtemps oubliée et pourtant vitale dans tout espace de travail. Hugo signe l'ère de la modernité pour faire la place belle à l'organisation. Désormais le rangement ne se cache plus, mais s'exhibe fièrement comme l'élément de génie, sans lequel un bureau ne serait rien.

Perfectionism in design, attention to minor details, a dimension that reflects a long-forgotten function but which is nevertheless vital in any working environment. Hugo is the hallmark of modernity and brings beauty into organisation. Now your filing no longer needs to be hidden away, but can stand out as the element of genius, without which an office is nothing.

## Le plaisir esthétique doit être un plaisir intelligent.

L'exigence d'Haworth s'affirme au-delà de toute volonté esthétique. Créé pour séduire, Hugo vous ouvre les portes d'un univers fonctionnel. Découvrez l'art de conjuguer génie de la technicité et raffinement d'options diverses, conçus pour une nouvelle éthique du rangement.

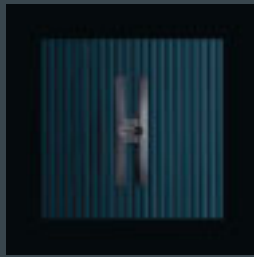

## Aesthetic pleasure must be an intelligent pleasure.

The Haworth specification is not just about aesthetics. Created to charm, Hugo opens the doors to a functional universe. Discover the art of combining technical genius with the refinement of the various options available, designed to change the way you go about your filing.
